

## **Policy Governing KLM's Code of Conduct to Protect Children**

KLM understands the important and resonating impact of the relationship between a child and their coach or team official. KLM recognizes the trust, integrity and understanding that must be built and maintained to create this healthy relationship. To ensure our club creates this healthy relationship for all our participants, we follow guidelines set out by Soccer Canada and highlighted in their ***Guidelines for Interaction with Children in Sport***. This document can be reference at:

These guidelines set boundaries for appropriate and inappropriate behaviour among children and team officials. KLM has a zero tolerance policy for inappropriate behaviours including but not limited to; sexualized attention, inappropriate physical engagement, unsolicited comments and excessive or inappropriate communication.

Should any coach or team official be found to have breached these boundaries, they will be terminated immediately.
